# INTRODUCTION and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1959 edition of the Concord City Directory, which also includes Beverly Hills, Brown Mill, Cannon Mill, Franklin Mill, Grove Park, Hartsell Mill, Jackson Park, Shankletown, Sides Town Silver Hill and the rural routes emanating from the Concord Post Office.

Confidence in the growth of Concord's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Concord to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Concord Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Concord, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Concord, Beverly Hills, Brown Mill, Cannon Mill, Franklin Mill, Grove Park, Hartsell Mill, Jackson Park, Shankletown, Sides Town, Silver Hill and rural routes residents, and the name, official

CONCORD CITY DIRECTORY CO.

personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

#### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Concord and vicinity.

#### **The Concord Out-of-Town Directory Library**

Through the courtesy of the publishers of the Concord City Directory, a Directory Library is maintained in the offices of the Concord Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### History

The name "Concord" has prophetic significance. The city was founded in 1793 by Scotch-Irish and German-Dutch settlers, and named Concord when the two factions came into "concord" after disputing the location of the county seat. The city has lived up to its name in mutual understanding and helpfulness among its citizenry.

The first court house was built in 1796. In 1872, a new and larger court house was built, but three years later it was destroyed by fire. The present court house was built in 1875.

The first gold nugget discovered in the United States was found in Cabarrus County in 1799. This nugget, weighing approximately 17 pounds, is now in the Smithsonian Institute in Washington, D. C.

Concord was one of the early textile areas to develop in the South and has continued to lead in industrial progress in dyeing, finishing, and weaving of materials. Cannon Mills, with some of its plants located here, produces more bath equipment than any other company in the world.

One of the earliest state reformatories in the nation was built here in 1910 at Jackson Training School, and the juvenile delinquency solution was early thought to be education and training.

Led by prominent citizens imbued with civic pride and community interest, Concord has grown to be one of the leading industrial cities in the south. Its citizenship is progressive and aggressive, and it is the home of many industrial enterprises.

### Government

Concord is administered by a Board of Aldermen and a Mayor who are elected by the people. Every man on this Board is a business man, and our city is run on a business

Concord Community Center, houses Concord Public Library, executive offices of Concord Recreation Commission, American Red Cross, Veterans Administration and Memorial Hall

basis. Cabarrus County is governed by a Board of County Commissioners who are elected by popular vote of the citizens. Our city and county governments are such to be proud of.

### Transportation

Concord is on the main line north-south of the Southern Railway, and is also served by Carolina Trailways Bus Line, Kannapolis Transit, and the Concord Bus Line. Frederickson's Motor Express Corporation, Terminal Trucking Company are inter-state transfers and trucking lines operating from Concord. National transfers make daily pick-up and delivery in Concord. Excellent air transportation of all natures can be obtained from Charlotte, only 20 miles away. Capital, Delta, Eastern, Piedmont, and Southern Air Lines operate from Charlotte.

### Communications

The Concord Daily Tribune published daily except Saturday, distributes 19,000 in circulation, and gets its news from 9,337 AP Service and two radio stations.

WEGO and WGTL on frequencies of 1410KC and 1,000 watts, and 870KC and 1,000 watts respectively, serve Concord and the county. It is also served by three TV channels.

The Concord Telephone Company, locally owned, has 19,000 telephones in this district alone. The company serves other communities also.

### Schools

City Hall, built in 1957 at a cost of \$174,467.58, home of City Government consisting of Mayor's Office, Tax Office, Water and Light, Engineering and Police Department

has outstanding school plants and exceptionally high educational standards.

# CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

## CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

3. **Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

**I**N ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

## **Out of Sight -- Out of Mind Out of Business**

★

*The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.*

★

**The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.**

# MR. CITIZEN!

## CORRECT INFORMATION IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. **Your name, listed correctly in the City Directory, is a great asset.** This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

# MR. CITIZEN!

## CORRECT INFORMATION IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. **Your name, listed correctly in the City Directory, is a great asset.** This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

Visit Our Office Next to Your House

# CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with  
the latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bod-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bod-check "operators."

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

**1959**

Including Beverly Hills, Brown Mill, Cannon Mill, Franklin Mill, Grove Park, Hartsell Mill, Jackson Park, Shankletown, Sides Town and Silver Hill

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers. The word "street" is not used in addresses. Where a designation "av," "cir," "ter," etc. does not appear, the designation "st" is understood.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

## CAUTION . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

**OUT-OF-TOWN  
CITY DIRECTORIES**

---

A complete library of out-of-town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

# CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with  
the latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## Don't Use An Old Directory!

•

One Address taken from an old Directory may send you miles out of the way and waste a whole day's time. You take pride in keeping a fresh stock of merchandise on your shelves—

•

Why not avail yourself of fresh information for your daily use?

## A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
